Oklahoma City, OK 73104

Description

The Oklahoma School of Science and Mathematics hosts a Summer Math Institute for middle school math teachers. The Institute offers instructors the opportunity to enhance their mathematics knowledge and advance their instructional skills. OSSM faculty and distinguished guests conduct the Institute. Activities include lectures, demonstrations, lab sessions and a field trip. The Institute addresses topics relevant to middle school math curriculum as defined by the PASS objectives, as well as deals with enrichment topics such as contest math. We invite you to be challenged, inspired and better!

Location and Dates

The Institute is held on the campus of the Oklahoma School of Science and Mathematics in Oklahoma City. Housing and meals are provided for teachers who wish to stay on campus. Meals are also provided for commuters. Teachers staying on campus register and move in Sunday evening, June 5. Commuting teachers register Monday morning, June 6. Monday through Thursday activities are scheduled from 8 a.m. to 4 p.m. The Institute concludes early Friday afternoon.

Contact

If you have questions contact the Institute Director, Tony Cornforth:
405-449-3391, ext. 256
tony.cornforth@ossm.edu

Dan Little Residence Hall

Certificate & Stipend

All teachers who successfully complete the Institute will receive a certificate of attendance and a \$300 stipend. The certificate recognizes a desire to improve math education in schools and also satisfies requirements for professional development.

Application

Download the application from the OSSM website at www.ossm.edu under *Outreach*. Submit to senabrothers@ossm.edu or fax to 405-521-6442. The application may also be mailed to: OSSM Summer Math Institute, 1141 N. Lincoln Blvd., Oklahoma City, OK 73104. The deadline is **Friday, April 29**. Due to limited space, teachers will be selected from a pool of applicants with preference given to those who apply early or who have not previously attended. Complete the application soon!

Quotes from Class of 2010 participants

“I could not ask for anything better. This was exactly what I needed and what I expected from this week.”

“A complex idea was broken down into simpler ideas to develop foundations on which to build.”

“It was really helpful to hear from the presenters and immediately be able to discuss with other teachers how to incorporate the information.”

“The different methods that I learned to explain problems to my students will be very useful.”

“I would definitely recommend this workshop to other teachers and hope to attend again in the future.”

“The activities presented will be extremely helpful with geometry and critical thinking skills.”

“Excellent! Relevant! Enjoyable! Fun and usable math/geometry ideas.”

“Enjoyed activities that make students want to learn more about math.”

“I will use many of the ‘tricks’ with my students to engage them in the *fun* aspects of math.”
